Subject: Support for low-power radio

I hope that Mr. Kennard and the FCC will continue to create opportunities for citizens to operate low power radio stations. I have talked to many friends and colleagues, and all of them recognize the value of micro radio and support efforts to provide easier access for ordinary citizens to our airwaves. If the reports I hear are correct, that Mr. Kennard and the FCC are working to ensure our right to greater freedom to operate micro radio, I congratulate you all for upholding the ideals of our nation, which will truly be blessed if your initiative succeeds. Hopefully, you will be receiving more letters in support of low-power radio, since the sentiment of most people is that our rights as Americans will better be protected if we are able to speak to each other with our own voices.

Thank you, good luck, people are with you!

Sanji
